

Postgraduate Representative Manifestos

Alfred Joseph

I think I am reliable, hard worker, active and enjoy helping others. I used to be a team leader at my previous work, helping others to grow and discover their potentials.

Katie Marquand

I have been really involved with CSS during my previous 4 years at university, having held the roles of Sports and Social sec and Vice President, and I would like to continue contributing to a fantastic society and community into my postgraduate study. I put forward the motion to include a postgrad rep at the last AGM and I believe it is important to include and engage postgraduate students. I think I am the right person for the job because I am organised, I would like to think I am approachable and I really care about making CSS the best society it can be.
