WE REPRESENT COMPUTER SCIENCE STUDENTS AT THE UNIVERSITY OF BRISTOL

WHY SPONSOR US?

- **We are highly active:** CSS holds hackathons, discussions panels, talks social events and more. In 2018-19 we ran over 30 events.

- Every CS student at the University of Bristol is part of CSS. We have around **600 undergraduates** and more than 250 postgraduates, making us one of the largest societies at the University.

- CSS sponsorship is a highly effective way to **promote your brand** and **attract top talent.** Sponsorship will ensure that you are visible to students throughout the year.

- We are in **constant communication with our members**, through our:
    - Facebook group: 2000+ members
    - Website: 500+ users per month
    - Twitter: 300+ followers
    - Instagram: 100+ followers
    - Job board: 38+ jobs posted last year
    - Newsletter: 180+ subscribers

- Our current and past sponsors include Cookpad, Just Eat, Dyson, Bloomberg, and Jump trading

TECH TALK

You send the presenter; we organise food, drink, venue and advertising. We usually expect an audience of around 30 to 50 people (variable depending on the availability and interest of students). Past talks have covered topics such as high-performance computing, JVM internals, formal hardware verification and banking security.

£199 inc. VAT

SPONSOR AN EXISTING EVENT

CSS

BARBEQWU

BRANDON HILL PARK | 9TH JUNE - 11AM

We run a number of recurring events which are popular with students. Sponsors of these events will be prominently featured in all advertising and have access to students for the duration of the event.

- **Autumn Event (November 2019)** The key event of our Autumn reading week - e.g. a hack-night, game jam or competition.

- **24 hour hackathon (February 2020)** the biggest event of the CSS calendar.

RUN A CUSTOM EVENT

Running a custom event is a great opportunity to talk directly to our students. It is the perfect opportunity to show them interesting technical problems you work on, what its like to work at your company and what you're looking for in new engineers. We often help our partners stage their CTFs and programming contests. If you want to run any kind of event, get in touch.

GET IN CONTACT

If you want to run an event, give a talk, or sponsor us then please get in contact with either Theano Xirouchaki *president@cssbristol.co.uk* or Viktor Kusheliev *vice-president@cssbristol.co.uk*

All prices include VAT. Prices may have changed since the printing of this leaflet; please contact for current details.
